

Save Money and Time Increase Reimbursement....

Encoder Pro allows users to simultaneously search procedural and diagnostic codes to deliver integrated search results, code detail and descriptions—all with a single keystroke and without costly code books.

Simplify Code Setup and Management...

Codes on Disk will save time and reduce errors.

Coding Options

*Saving you time & money while
increasing reimbursements*

**Encoder
Pro**

Make the right coding decisions:

- Code Logic Search Engine – Easily search all three code sets simultaneously.
- Descriptions, HCPCS, Annotations and IDC-9-CM section notes provide important non-clinical content that is helpful to both novice and experienced coders.
- Surgical Cross-Codes – find all CPT-add on codes for primary procedures and verify the correct match between codes.
- Find cross codes for CPT and HCPCS Level II procedures
- Notepad, Bookmarks and Sticky Notes provide convenient ways to document and benefit from each code search.

CODES ■
on DISK

Save Time and reduce changes for coding errors with Codes On Disk, a powerful tool that automatically loads CPT-4, IDC-9 and HCPCS codes into your MediSoft™ Version 11.

Codes can be customized with standard cost, standard charge and type of service. Manage your codes from a single, easy to use screen and you can globally change prices to all procedure codes.
