

Manage Your Appointments Easier and Faster with. . .

NDCLytec Scheduler Professional is the best value in patient appointment scheduling solutions with its unsurpassed features and its affordability.

Save Time and Schedule Appointments with Ease

- Quickly make, copy or change appointments
- Track treatment room schedules
- Instantaneously search all providers for next available time slot
- Add patients to an appointment wait list

NDCLytec Scheduler Professional's easy-to-use screen and templates make scheduling, cancelling, and rescheduling appointments easy.

Organize Your Appointment Schedule

NDCLytec Scheduler Professional allows you to create appointment templates to reserve time slots for certain types of appointments. It organizes your appointments making it easy for you to schedule and to see more patients!

- Set a maximum number of appointments allowed
- Color code appointments to quickly identify types of appointments such as new patients who require registration forms

Increase Your Practice's Efficiency

- View appointments according to what works best for your office — by day, week or resource
- Track the status of appointments — mark them as pending, confirmed, waiting, being seen, completed, late, missed or cancelled
- When used with NDCLytec, you'll be able to share patient data saving you time when scheduling. You'll also have access to other features:
 - View a patient's co-payment and account balance information
 - Print superbills for all scheduled appointments
